

Corrections to 6/18/2024 Awards

Posting 0113- was originally awarded to Anthony White. He did not post to this posting. It is now a No Applicant. Anthony did put in it for other postings and is awarded his sixth priority.

Posting 1429- was originally awarded to James Protsman-Belt. This posting is being awarded to Anthony White. It is his sixth priority. James had in for three postings and was beat out by seniority.

Posting 1447- was originally awarded to Blake Storm. It is pulled due to Management not curly shuffling and an ERGO Route Operator standing in the aisle from continuous improvement. This was the only posting that Blake applied for. Blake has his posting rights back.

Posting 1449- was originally awarded to Robert Jacobs, Jr. It is being awarded to Adam Tinkler. This occurred due to adding job postings and a person applying at the same time as the add and not realizing the numbers on the postings changing. Robert will be awarded his #2 choice.

Posting 1450- was originally awarded to Donnie Ruddick. Donnie posted to three other postings and was beat by seniority. This is being awarded to Robert Jacobs, Jr. This happened due to adding two postings to the postings letter and moving the numbers in the system. Robert had already posted to the original numbers and the system did not move his applications to the new numbers. When posting in this system, there is no job description, only numbers. When we added two more jobs, the system did not know. We will not be adding postings after making them live anymore. We did not know it would do this; we apologize!

Posting 1463- had a shift preference with the application and we failed to add it. Ray Gipson is still awarded this posting but has a shift preference with it to third shift.

TO: All Shift Leaders / Manpower Coordinators
FROM: Fred Reyna
DATE: 6/18/2024
SUBJECT: Transfers

Note: All affected Group Leaders must ensure that transferred employees receive proper safety training. This training must include, but is not limited to, hazard communications / safe job practices, lock out, confined space entry, fork truck driver, man lifts, benzene and formaldehyde as appropriate for the Department they are entering. In addition, medical surveillance is required for employees who are transferring to operations with the following criteria:
 -HAZMAT team members
 -Fork Truck / Crane Operators
 Hearing protection is required. The noise level is above 85 decibels and the operator must receive an audiogram within 6 months of the assignment.
 Training records must be maintained as previously established. If there are any questions, contact the Safety Department. Employees transferring to a different department must review the clothing and PPE requirements prior to transferring to the new department. Compliance with the new departmental standards is expected on the first day of transfer. Group Leaders of employees obtaining transfers must provide the Employee Relations Department with secondary transfer information consisting of the operation, column #, line address and team #.

****Contingent upon successful completion of Team Leader Selection Process**
